Subject: Certification for the Application for Cleanup of PCBs OTD Phase I Project
Date: Monday, October 03, 2016 12:11:38 PM

Hi Carmen,

A follow up to our meeting last week. Since the Application was certified by the current demolition subcontractor, what do we need to do once we hire a new subcontractor?

Should LBNL resign the certification and have the new subcontractor sign?

Thanks again for a good meeting last week?
